Professional strength therapeutic light energy in a hands-free, easy-to-use design.

P/N 7000114-BLK  
P/N 7000114-WHT

System components may differ depending on the model.

## Vortex-Fusion®

The unique Vortex-Fusion delivery system is what sets HydraFacial™ apart from other resurfacing procedures. HydraFacial uses a series of unique HydroPeel® Tips. Each one has a specific use to clean, extract and hydrate the skin.

The spiral design of the HydroPeel Tips is used in conjunction with the HydraFacial proprietary vacuum technology and serums. This creates a vortex effect to easily dislodge and remove impurities while simultaneously introducing hydrating skin solutions with potent antioxidants.

## MECHANICAL LYMPHATIC THERAPY

Mechanical Lymphatic Therapy helps to detoxify the skin. Removing unwanted build-up is important in optimizing skin health so skin can be naturally healthy and radiant from the inside-out.

### Treatment Areas

- Face (33% of the lymphatic system is in the face)
- Arm
- Leg
- Abdomen
- Back

\*Check with your state to see who is licensed to perform mechanical lymphatic drainage.

## LED LIGHT THERAPY

Treat full face wrinkles or acne with the versatile LightStim Elipsa™ which combines therapeutic light energy with patented technology. Efficient, hands-free application and a fully programmable timer give you the freedom during use, to perform other services. It can be used in seamless connection with HydraFacial Syndeo™ or on its own.

Two treatment modes:

**Wrinkles Mode** treats full face wrinkles.

**Acne Mode** treats mild to moderate inflammatory acne.
